

ABSTRACT OF THE DISCLOSURE

Apparatus and Method to Enable Transparent Memory Hot Plug/Remove

5 In some embodiments, an apparatus includes a processor, an expander
memory bridge location, a memory coupled to the expander memory bridge location,
and a bus controller including intercept logic to intercept and block communication
from the processor to the expander memory bridge location and to emulate an
expander memory bridge. In some embodiments, a method includes intercepting and
10 blocking a status request to a device, regardless of whether the device is installed, and
responding to the status request.
